It is said that Andrew K. Burrows, the deputy collector of customs at Port Huron who was recently removed, will further contest his case.

Disfigurement for life by burns or scalds most reckless and hardened criminal. may be avoided dy using DeWitt's Witch Hazel Salve the great remedy for piles and for all kinds of sores and skintroubles. For Sale by B. S. W. bb.

contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mincous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and is made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. igan's Principal Prison.

Convicts in the Michigan state prisco have many more favors than those on almost any other penitentiary in the United States, and it is the belief of the Small pill, safe pill, best pill. DeWitt's management of the institution that for this reason there are fewer outbreaks or stipation, sick headache. For Sale by B. S. lawlessness than are found elsewhere. Among the favors granted to them here is that of keeping and caring for birds. There are fully 600 feathered songsters will visit the factories they have inspect- in Michigan's principal penal institued the past year to see if their orders tions, all owned and cared for by the convicts, and as soon as daylight approaches on bright mornings their sweet notes are heard in striking contrast to the natural feelings of their owners.

Many of the most hardened criminals. from their general appearance and history, would not be expected to care for anything of a refining nature, yet they tenderly care for and caress their little

More than three-quarters of the cells in the prison contain one or more canaries, and they are also found in various shops throughout the institution. Dur-WARNING .- Persons who suffer from ing the day the cages are hung outside the cells to give the birds light and air, but as soon as the convict returns from work at night the cage is taken in-

The practice has been carried on in the prison for years, and the officials say that, instead of any detrimental effect being noticeable, the little songsters have proved a benefit, as they not only give the cells a more home ke appearance, but they also wield a weided influence in the way of humanizing the

Besides being permitted to keep the birds for the sake of their company and influence, the convicts are also allowed to raise them to sell, and many a dollar is credited to the accounts of the prison-Beware of Ointments for Catarrh that ers from this source. Of course the convict handles none of the money realized from the sale of the birds until he is lischarged, but it is placed to his credit

was beard, and then the customer said: "Do you know what you've been telling me is very interesting?" I wish you would tell me more, for I'm going to begin to

Well," resumed the manicure, "bread nails indicate a gentle, thuid and bashful nature. Of course people with broad nails variably gentle. I made a customer very angry once. She was a middle aged woman, and it was the first time that she had ever come to me. She said that a dear friend. Mrs. Brown, who was one of my regular customers, had recommended her to come to me. As soon as I began to work on her nails she began to quarrel. She quarreled with my instruments and my way of using them, and finally let in on her dear friend for sending her to ma I worked away and said nothing, and when I finished her nails looked really beautiful. She looked at them and then at me and said: 'You must think me very disagrees

'Oh no!' I answered. 'I knew you

would quarrel about something when you sat down, because your narrow nails told me that you had a quarrelsome nature, and you are not only quarrelsome, but you have an inordinate ambition. Pardon my frankness, but people with narrow nails like yours are always quarrelsome and ambitious.

"She flounced out, but she has come be me once a week ever since.

'That very day a stout man of athletic build came in. He fixed his piercing eyes upon me and seemed to be trying to read me, but I had the advantage, because I could read him without glancing at his face. After a time he began to question me about my business, and I plucked up sourage to volunteer:

" 'And you are a student, you are fond of knowledge and are full of liberal senti-

"He stared at me as if I were crazy and said nothing more, but when he went to seave he undid a parcel, took out a book and wrote upon the fly leaf, 'For the little manicure who read the author at first sight-from the author,' and presented to to me. That author was one of the most popular belonging to the realistic school, and I guess he thought I was a witch, or of course he thought that nobody would take him for a student with his magnificent physique. He didn't know that his round nails had indicated to me what his shief characteristics were, and he has never been back since. Perhaps he was afraid of me, but anyway I prize that book he gave me above anything else that I have.

Small nails indicate littleness of mind, obstinacy and conceit. Watch out for the person with small nails, especially if it happens to be a man for he will be capable of petty thoughts, speeches and actions and thinks more of himself than of any one else. If it is a woman, she is apt to be spiteful and jealous, and, generally speaking, says things behind your back

that she wouldn't to your face. People of billous temperament have red and spotted nails, and so do martial men, delighting in war Where you see these red nails you may be sure that the person possessing them is easily irritated, though apt to get in a good humor just at

There is a superstition to the effect that white marks on the pails denote misfortune, but there is nothing in it. These white marks that schoolgiris call beaus merely show that there is too much acid in the system. They are rather disfigur ing, but are easy enough to get rid of if one is inclined to diet for a week."-New

""Oh, well," the wolf rejoined, "ir you did not, your architecture. I become a construction of the wolf rejoined, "ir you did not, your architecture." Oh, yes, I do. I said, because the

The silvence welves who are howling calamity and threatening to overthrow our sound financial system pret nd to find an exense for their 16 to 1 schemes in the unsettled condition of business. Because loans are being called in and capital is timidly waiting the result of the elections, the advocates of free coinage say, in the words of their presidential candidate, "You are interfering with business." All unfavorable indications in trace and industry they loudly ascribe to the gold standard, and the For awhile only the sound of the file manufacturers who are forced to limit their output by reason of the refusal of merchants to buy while there is so much uncertainty about prices are accused of being goldbugs who are purposely making hard times.

It should be easy for all intelligent voters to see through the hypocrisy of sciences. often overcome their timidity and have the silverite claims. Nothing can be perfectly easy manners, but they are indue to the gold standard any financial stringency which may now exist is almost entirely caused by the agitation for a debased currency. With a large number of office seeking politicians go ing up and down the country shouting for cheap dollars, and promising to cus the measure of values in two if they gain control of the government, how can business be good? A tight money market simply means that the owners of capital are unwilling to make loans. Does any reasonable man expect that the threat of enabling borrowers to pay their debts in 50 cent dollars to going to encourage investors to part with their capital? On the contrary, is it not self evident that the clamor for a debt repudiation policy is the real source of

business depression? So long as there remains any doubt s to the future financial basis of our great industrial and mercantile operations so long will there be anxiety and fear in the commercial world. Distrust will continue to breed failures; capital will be scarce and interest high; debts will be hard to collect, and investors will hesitate to engage in productive industries. This condition of affairs can only be remodied, in so far as our money standard is concerned, by an emphatic declaration at the polls against free silver and all other cheap money faile in

Datty and Cremmery Now is the time to breed cows for winter dairying.

The best opinion among cow raisers appears to be that the old rigid stanchion as a fastener must be given up and a tie substituted that will give more freedom

Read this from Hoard's Dairyman Three-fourths of a pound of milk are 13 ounces, of which not less than five-sixths, or 10 ounces, are water and nothing but water. Why not apply a little common. sense to the claims of these fellows who pretend to make 1; pounds of butter (1) out of 12 ounces of milk and 16 ounces of butter?"

Brown Bessie, one of the Jersey cowe in the Columbian dairy test, after five months at the fair gave the day before she left there milk that made over three bounds of butter a day. But she died.

A prominent practical dairyman of New Jersey declares that, in his judgment, every dairy farm should have : silo for summer use as well as for winter. Mr. M.iler, a Penn Yan dairyman, lives on land worth \$100 an acre. He can raise and put away silo corn at . cost of \$1 a ton. At that rate he calculates he can feed his cows more cheaply on silage than on pasture in summet using the ground to produce the silage.

Half the battle in successful dairying and creamery running consists in knowing how to buy and sell. Keep your eve on the markets. Don't let any agents

Mr. Raggerty's Substantial Angle

The other day a patient was brough to the Santa Fe hospital at Ottawe whose case is worthy of mention, socause in the long category of railroad accidents there are possibly few if any like it. The injured man is C. H. Haggerty, who was employed as switchman et Arkansas City.

Recently while making a coupling in the Santa Fe yards he fell, and a car loaded with gravel passed over one of his legs at the ankle. Though the flesh was terribly lacerated, no bones were broken. The surgeon who attended Mr. Haggerty at the hospital said that he had never heard of a case where a loaded car rolled over the leg of a man when the bones were not shattered to tragments, and it required the testimony of the entire train crew to convince him that Haggerty's ankle had been so treated -Kansas City Journal
